ABOUT US

Electrotherm (Pty) Ltd. is an established company founded by members with a wealth of experience in localised heat treatment.

Our expertise and skills are focused in general industries such as

- Construction
- Power Generation
- Petrochemical
- Mineral & Mining

By using Electrotherm you'll be guaranteed of qualified, experienced guidance from our professionally trained staff, to assist and monitor that you receive a quality, world class service from various experts in the above mentioned sectors.

The services offered by Electrotherm are focused on attention to detail based on the Client's specifications, inclusive of the advice from Company's experienced personnel.

ABOUT OUR TEAM

Expertise You Can Trust
Our team is the heart of Electrotherm. Comprising skilled professionals with a passion for excellence, we bring a unique blend of expertise, innovation, and dedication to every project.

OUR VISION

Shaping the future of Heat Treatment
In the next 5-10 Years we envision:

01

Global Expansion

Establishing a strong presence in key markets worldwide.

02

Technological Leadership

Investing in cutting-edge heat treatment technologies to drive efficiency and sustainability.

03

Industry Recognition

Becoming the go-to provider for critical applications in construction, power generation, petrochemical, mining and aerospace.

04

Customer Loyalty

Customer Loyalty Building long-term relationships founded on trust, reliability, and exceptional service.

OUR MISSION

Precision, Quality, and Trust

Our mission is simple yet powerful: to be the trusted leader in the heat treatment industry. We achieve this by delivering exceptional quality, innovative solutions, and unmatched customer satisfaction. Every project we undertake is guided by our commitment to precision, reliability, and transparency.

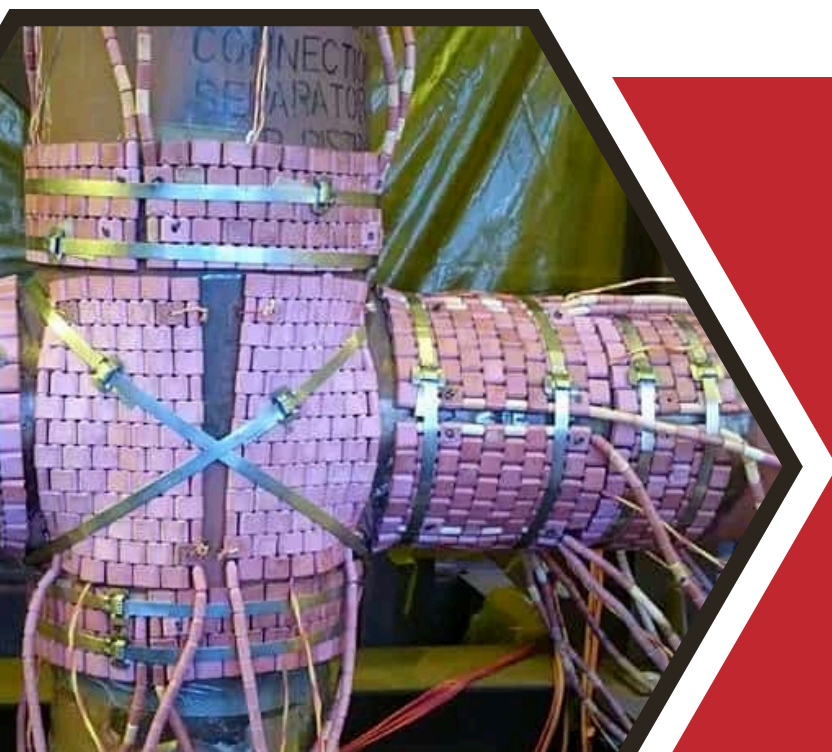

WHY CHOOSE US?

What sets us apart?

Quality, Speed & Knowledge

From rigorous quality control to competitive pricing and exceptional customer service, we go above and beyond to meet your needs. Whether it's construction, mining, or petrochemical, we're here to provide reliable, customized solutions.

- Deep Industry Knowledge
- Customer-Centric Approach
- Commitment to Quality
- OHAS Awareness

WHAT WE OFFER

Affordable & Transparent Pricing

Get high-quality heat treatment services without the hefty price tag. Our pricing is clear, fair, and designed to fit your budget.

Quick Turnaround Times

We understand the importance of deadlines. Our efficient processes and flexible scheduling help us deliver on time—without cutting corners.

Customized Solutions

Every project is unique, and so are our solutions. We deliver the best results for your materials.

Strict Quality Standards

We follow rigorous quality checks to ensure every project meets industry standards, giving you confidence in the final results.

Support You Can Count On

Our team is here to answer your questions, provide updates, and make sure the entire process runs smoothly from start to finish.

Innovative Technology

We invest in the latest heat treatment technology to ensure efficient, consistent, and high-quality solutions.

OUR SERVICES

ELECTRICAL HEAT TREATMENT

- ✓ Pre & Post Weld Heat Treatment
- ✓ Normalising
- ✓ Hydrogen Diffusion
- ✓ Tempering
- ✓ Degas
- ✓ Expansions
- ✓ Refractory Dry-out

OUR SERVICES

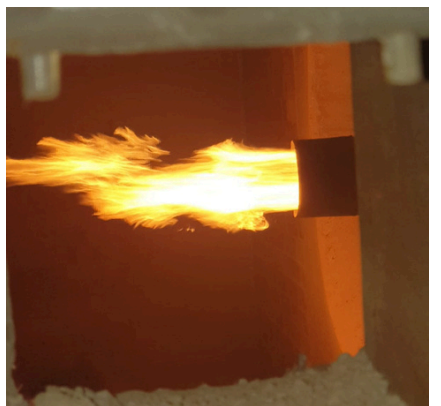

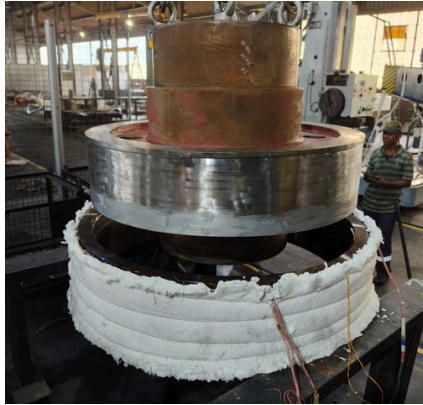

GAS HEAT TREATMENT

- ✓ Furnace heat treatment
- ✓ Furnace constructions
- ✓ Diesel and gas firing
- ✓ Refractory dry-out
- ✓ Furnace startup
- ✓ Post weld heat treatment
- ✓ Stress relief
